

"Doetinchem is an ambitious municipality. We're modest by nature, yet we appreciate being strong in something: sports, culture, healthcare, education, or entrepreneurship. We're increasingly showcasing our strengths. We're pooling our positive resources. You could say we're the Achterhoek region's podium.

But achieving and maintaining a podium position isn't easy. Doetinchem faces major choices in the coming period. How do we keep it affordable and livable, with space for living, working, learning, and relaxing—now and for our children and grandchildren? We're taking this bold step and saying: it can be done. We're shaping our own future.

Vote D66 on March 18!"
