

Freedom for everyone, but nobody left behind

For equal opportunities. Affordable living. And a
green future.

Vote D66 14-16 March

D66
 groningen

Free and connected

D66 wants a society in which everyone can be themselves. A society that connects instead of polarises. Our conviction is that to achieve freedom, equal opportunities and sustainability requires political courage. D66 aims for a free, connected, and vibrant Groningen. Will you join us?

Being free starts with the best education

We want everyone to be able to fulfil their potential and to have the same opportunities. This starts with education. That is why we have abolished the study loan system. In Groningen, D66 wants to extend the provision of free childcare as well as the enriched school day, in which we introduce children to sports, culture and nature. Of course, we will also continue to invest in the best school buildings.

Affordable and sustainable living

There is a severe shortage of affordable housing. Too many projects are slowing down, construction of new houses is too expensive, and investors have too much influence. D66 wants to tackle this by building specifically for first-time buyers and the middle segment and by preventing houses from being bought to rent. We want to develop a lively Campus on Zernike with housing and facilities for students and young people.

Climate leadership in a green municipality

We have planted thousands of trees and renewable energy generation is increasing rapidly. D66 wants to further accelerate the transition to more sustainability with even more sustainable generation. We do this by using residual heat and by helping residents installing solar panels on their roofs. In addition, we aim for a reduction in emissions: by giving priority to bicycles, public transport, a train to Zernike and the Lelylijn.
