

## **Our one pager**

In recent years, D66 Tilburg, as the largest coalition party, has made a significant contribution to the development of the municipality of Tilburg. But we still have plenty of dreams to fulfill. With your vote, we will therefore commit ourselves in the coming years to...

### **...a pleasant living environment**

- In total, we will realize 25,000 homes by 2040, of which 3,000 in our villages. We ensure a suitable home for everyone. We continue to invest in major area developments.
- In the coming years, we want to work on Stappegoor, Kenniskwartier, Museumkwartier, Kanaalzone, Stadsforum and Koningswei.
- We advocate for a vibrant municipality with plenty of attention for art and culture, space for sports, socializing, and vibrant places with hospitality and recreation.

### **...a sustainable future**

- We invest structurally in an inclusive energy transition. We ensure that everyone can participate in sustainability, even if you don't have the means yourself.
- Tilburg will be fully circular by 2045. That's five years earlier than the national ambition.
- We improve climate adaptation in every neighborhood together with the residents, for example, by adding more greenery and creating cool spots.

### **...equal opportunities for everyone**

- We strive for a rich school day, where you get to know healthy food, sports and culture, nature, language, and homework assistance in fresh and energy-neutral buildings in your own neighborhood.
- We stand for a society where everyone can be themselves and where there is no place for racism and inequality.
- In Tilburg, everyone receives the care and support they need. A good start leads to a good life. That's why we invest in health and a secure existence.
